1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is the inclusion of the language "at least one of the first conductive layer and the second conductive layer generating a magnetic field having the same direction as that of the bias magnetic field through a sense current." The prior art does not generate (i.e. to produce or bring into existence) by way of conductive layers a magnetic field in the same direction as that of the bias magnetic field through the sense current. The prior alters an existing field in the free layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
